EXPERIENCE AS SUCCESS STORY.

WALO floor and wall coverings is part of the innovative construction company Walo Bertschinger AG, which was founded in 1917 and is now managed by the fourth and fifth generation. The company focuses on the combination of durability and innovation. It is therefore not surprising that WALO first produced concrete flooring in 1933. In 1933, visitors to the national exhibition in Zurich were thrilled with colored asphalt surfaces and paving. The next innovation followed in 1950 with synthetic resin surfacing. Our employees played a key role in shaping this development. They have continuously built up the know-how and passed it on and honed it over the generations. This is reflected in the high quality of our products today.

QUALITY THAT LASTS.

WALO floor and wall coverings meet the highest quality standards. We only use high-quality materials and attach great importance to the experience, precision and meticulous work of our employees. The result is genuine craftsmanship that will inspire for a long time. Invest in exclusivity and durability of our seamless floor coverings and let the quality speak for itself.

Craftsmanship

DIVERSITY THAT CONVINCES.

Our floors and walls have been developed for a wide variety of needs. The variety of WALO floor and wall coverings impresses with its numerous design and functional options. The surfaces can be individually adapted to your needs and are therefore suitable for a wide range of applications.
